

## CONSTRUCTION SERVICES

- New Construction/Renovation of Buildings
- Commercial, Institutional and Industrial Building Construction
- New Single and Multifamily Housing Construction
- Highway, Street and Bridge Construction
- Water and Sewer Line and Related Structures Construction
- Structural Steel and Precast Concrete
- Concrete Contractors
- Fence Installation
- Roofing Contractors
- Painting Services/Masonry Contractor
- Grounds Maintenance Facilities/ Landscaping
- Site Preparation Contractors
- All other specialty trade contractors

## ENGINEERING AND DESIGN

- Foundation studies/Slope stability
- Earthwork monitoring and soil compaction testing
- Concrete mix design and production monitoring
- Asphalt mix design and production monitoring
- Pavement management programs
- Structural steel and welding tests
- Roadway & bridge foundation design
- Physical and mechanical testing of freshly mixed and hardened concrete
- Pavement management programs
- Architectural Support
- Support activities for nonmetallic minerals (except fuel)
- Earth retention system design
- Roadway soil studies
- Pavement system design
- Soil stabilization and remediation
- Foundation failure analysis
- Airfield pavement design
- Forensics studies
- Precast concrete inspection
- Non-destructive testing programs
- Special construction inspection

## RENEWABLE ENERGY

The World has changed. High Energy Efficiency and Renewable Energy have become an everyday reality in the construction industry. At LEC Group, we have the experience and skill to design and build effective systems related to Geothermal Heating, Wind Energy Production (turbines), and Solar Energy Generation.

### Design & Installation

- Wind Turbines
- Solar Water Heaters
- Solar Panels
- Geothermal Heat Pumps

### NAICS CODES RENEWABLE ENERGY

## ENVIRONMENTAL SERVICES

- NEPA assessments
- Landfill permitting, design, and construction monitoring
- Hazardous waste planning and management
- Solid waste management/planning
- Environmental assessments Phase I, Phase II & Phase III
- Indoor air quality/Water resource planning
- Site investigation & remediation

## DUST SUPPRESSION AND MITIGATION SERVICES

- Effective method to achieve health and safety air quality standards
- Practical and simple in application and maintenance
- Low initial and maintenance costs
- Low operating costs
- Minimizes dust emission
- Meet quality standards by EPA
- No adverse effects from application due to product quality and equipment
- Stops the continuous cycle of road deterioration caused by grading, and fines and aggregate loss
